**How did you hear about our program?**

\*Please note: CORE Professional Services PA is unable to provide supervision from a Social Worker professional at the present time. We do offer supervision for Marriage and Family Therapy as well as Board of Behavioral Health Approved supervisors (LPCC and LPC licensure seekers). We also provide practicum and intern supervision from a Licensed Psychologist. All internships are unpaid and may require some travel with transportation provided. All potential interns will be asked to sign a background check approval.
